Condensed Consolidated Interim Financial Statements (unaudited) for the period ended 30 June 2023

INTERIM DIRECTORS' REPORT

The directors hereby present their interim report together with the condensed consolidated interim financial statements of SP Finance p.l.c. and its fully owned subsidiaries (the "Group") for the period from 1 January 2023 to 30 June 2023.

The interim directors' report is being published in terms of Capital Markets Rule 5.75.2 issued by the Malta Financial Services Authority and the Prevention of Financial Markets Abuse Act, Chapter 476 of the Laws of Malta.

Principal Activities

The Group's principal activities consist in the ownership and operation of the Pebbles Boutique Aparthotel in Sliema and the operation of the hotel Pebbles Resort in St. Paul's Bay. As from 1 April 2023 the Group has taken over the operation of a number of catering establishments comprising the MedAsia Fusion Lounge in Sliema, the MedAsia Playa in Sliema, the MedAsia Golden Sands in Golden Bay, the Noodle Box in Sliema and all the bar and restaurant venues located in the Pebbles Resort in St. Paul's Bay. A fully owned subsidiary, Med Asia Branding Ltd. – C89612 (formerly Pebbles St. Julians Limited) is involved in the ownership and exploitation of intellectual property rights.

Review of Business

The Group registered a loss before tax of €478,158 (2022: loss of €749,707).

The decrease in the Group's pre-tax loss compared to the first six months of 2022 is mainly attributable to the following factors:

- A 54% increase in hotel operations' revenue from €1.279 million in 2022 to €1.973 million in 2023
- Revenue of €1.604 million from the operation of the catering establishments that were introduced within the Group on 1 April 2023
- An 80% increase in gross profit from €479,195 in 2022 to €863,552 in 2023.

The depreciation charge of €701,581 and finance costs of €445,449 in 2023 were practically unchanged from 2022 (€728,951 and €418,885 respectively).

The Group's financial results continue to show a marked improvement over the previous years. Following the spectacular 235% increase in revenue between 2021 and 2022 as the world exited the impact of COVID-19, the revenue from hotel operations increased by a further 54% between 2022 and 2023. While the Group experienced significant increases in its operating costs, it still managed to increase its overall gross profit by 80% and reduced its loss before tax by 36% compared to the same period last year.

As stated earlier, as from 1 April 2023, the Group took over the operation of a number of catering establishments previously operated by related companies outside the Group. In the three-month period from 1 April 2023 to 30 June 2023 these outlets generated €1.604 million in revenue and achieved a gross profit of €468,757 and a profit before tax of €182,431. Unfortunately, bad weather in April and May delayed the opening of the beach club operated by the Group and caused extensive damage to the premises, both of which negatively affected the financial results.

As with all Groups operating in the hospitality sector, the second six months of the year typically generate for the SP Finance Group almost 70% of its annual revenue. On the basis of the encouraging results of the first six months of the year and the level of bookings for the rest of the year, it is expected that the Group's financial performance will continue to improve significantly such that the targets set for this year will likely be achieved.

Risks and uncertainties for the remaining six months of 2023

The hospitality and travel sector in Malta, similarly to competing tourist destinations, appears to have completely recovered from the COVID-19 pandemic and it is expected that inbound tourism numbers in 2023 will exceed pre-pandemic levels. Through the operation in the summer months of the 'Bora Bora Ibiza Malta' music hotel in St. Paul's Bay the Group is well-positioned to take advantage not only of the upsurge in tourist numbers but also of Malta's marked shift to a younger, fun-loving tourist profile.

The war in Ukraine which has now been ongoing for more than eighteen months continues to fuel not only geopolitical uncertainty but also serious disruptions in energy and food supplies. The supply-side inflationary pressures it triggered in 2022 are not yet fully under control despite central bank authorities' interventions to raise interest rates to levels not seen in the last two decades.

While in Malta government continues to subsidize energy prices, there is growing concern whether this is sustainable in the medium term. Any inflationary pressures that may result from the tapering off of energy subsidies, together with the availability and cost of labour are the main risks and uncertainties facing the Group in the remaining six months of 2023.

Dividends

The Directors do not propose the payment of an interim dividend.
